

TRAVEL POSITION

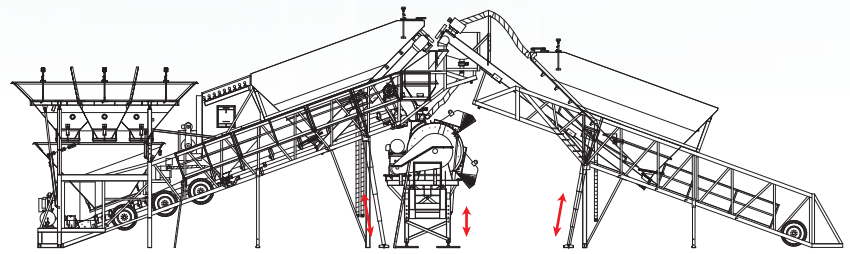

# NO CRANES NEEDED

## HYDRAULIC ERECT MOBILE BATCH PLANT

The Vince Hagan Company introduces the most user friendly and mobile self-erect concrete batch plant on the market. With an industry first safety control feature that ensures level hydraulic raising and lowering of the plant. The plant comes standard with a Vince Hagan exclusive in-truss dust collection system. Meaning a true "one load" for both mobile batch plant and dust control unit that does not require the use of cranes to erect. No longer does your company have crane costs, extra load costs and labor costs for plant erection.

## HYDRAULIC ERECT MOBILE CENTRAL MIX PLANT

**PLANT • MIXER • AUX. SILO**
